GORDINIER'S TROJAN KING PEPPER

Gordinier's Trojan King we believe will take the place of the popular Ruby King.

Trojan King runs remarkably true to type, the plants standing upright and loading down with large, bright, glossy fruit, running even in size and IN GREAT ABUNDANCE.

It commences bearing early and bears continuously until killed by frost.

The size is just right for shipping, and very smooth for so large a pepper.

The flavor is MILD and SWEET. Not a hot plant in 100 acres.

It will pay you, we think, to give GORDINIER'S TROJAN KING Pepper a trial this year, and we are offering the original package (1 Oz.) for 50c.

Let us have the order at once as we shall have only a limited stock this season.

ONION SETS — WRITE FOR PRICES AND SAMPLES.

When you are in the market for Clover, Timothy and Field Seeds of all kinds, write for Samples and Prices.

This is the largest Poultry Supply House in Northern New York.

Remember, we carry a Complete Stock of Bunching Twine, Hot Bed Mats, Mastica-Baskets and Everything for the Market Gardener.

H. W. Gordinier & Sons Co.

Troy, N. Y.

New Burbank Tomato

Grown By Mr. De Graw, Watervliet.

The qualities of the BURBANK Tomato are first, earliness,—a series of tests made with and in competition with all the other leading varieties of early Tomatoes,—places the BURBANK Tomato in the lead as an early sort. Secondly, is quality. Color red and quality A-1. It is noticeable that the early varieties of Tomatoes are more seedy than the late varieties but the BURBANK is exceptional in not being any seedier than the varieties of late Tomatoes. It is certainly a variety that can be recommended to Market Gardeners who are anxious to place their product on the market at the earliest time possible.

(This Description Is Written For Us By Mr. DeGraw.)
